

2024 Astroprobe Explorers Program Kickoff Meeting Safety & Mission Assurance

**Joe Calabrese
EHPD Program
Chief Safety & Mission Assurance Officer (CSO)**

November 14, 2024

Safety & Mission Assurance (1 of 2)

- Mission Risk Classification is defined as C per NPR 8705.4
- Explorers and Heliophysics Projects Division (EHPD) Mission Assurance Requirements (MAR)
 - Class C MAR Released February 2024 (Rev C)
 - EHPD-MGMT-REQ-001C
- Implementation of the MAR will be defined in the Mission Assurance Implementation Plan (MAIP)
 - A draft MAR Compliance Matrix and/or MAIP to be developed during Phase A and delivered with the concept study report.

Safety & Mission Assurance (2 of 2)

- MAIP can be based on existing organizational practices if compliant to MAR requirements
 - List of expected deviations to the MAR is required
 - Deviations should be captured in the compliance matrix and can be addressed in the MAIP if adequately documented
 - List of potential radioactive materials are required
 - A well documented MAR Compliance Matrix and MAIP are invaluable
 - Additional SMA Requirements may be levied by the access to space provider (ISS, spacecraft host, rideshare provider, etc.)
-
